St. James' Church, Bolivar, Tenn.

Services on every Sunday and on all the Holy Days by the Rector, W. O. GRAY.

M. C. R. R.—Trains going north pass here at 12 m., and make close connection at Jackson with cars on the Mobile & Ohio road.

Trains going south pass here at 2 p. m. At the Junction close connection is made with passenger and freight trains on the southern division of the road that go through to Canton, and there connect with trains to and from New Orleans direct.

Connection is also made with trains on the Memphis and Charleston road running east and west of the Junction.

THE TOURNAMENT.—A meeting of our citizens is to be held at the store of Harris, Moore & Co. this evening at 7 o'clock, for the purpose of perfecting all the necessary arrangements for the coming tournament, which we are glad to state will come off some time in the latter part of July or the first of August next. All persons who are favorable to the project are earnestly invited to participate in the proceedings.

ARCHEOLOGY.—Owing to the fact that the persons who are acting as agents for the monumental society have not made returns to the Secretary that officer is unable to furnish us with a list of the contributors to the fund which is being collected for the purpose of building a monument in memory of the Confederate dead of this county. There is seventy or eighty subscription lists out, and we understand that in some localities the people are responding liberally. It is hoped that those who have the good work in charge will report at least every two weeks to A. T. McNeal Esq., the worthy secretary at this place, so that the list of subscriptions may be published.

NEGRO KILLED.—A few days ago, near Duck Hill, on the M. C. R. R., in Miss., a negro was run over by a train of cars and so horribly mutilated that he could scarcely be recognized as a human being. He was asleep at the time, and thus passed into eternity without even knowing that danger was nigh. The engineer reversed his engine but all to no purpose—the immense driving wheels crushed the unfortunate's body into atoms ere the train could be stopped.

A NEW DEFINITION.—Some few days ago a party of gentlemen were seated upon the banks of the Hatchie enjoying a hearty meal under the shade of a fine cluster of trees; good humor prevailed, and many amusing anecdotes were related, among which was one wherein the word "Fenian" was frequently used. In the party was the little son of our friend Bob L., who had been eagerly listening to the capital joke related by his father. After a hearty laugh had been indulged in by all parties, little hopeful looked in an inquiring tone—"Pa, what is a Fenian?" To which the gentleman replied: "Nothing but a drunken Irishman, my son!" L. never did believe that the Fenians would capture Canada, and hence his definition of the term.

ON DR.—We hear that a concert is to be given at Whiteville for the benefit of the monumental fund. Can we not get up one for the same purpose here? Certainly we have the material in our midst. Who will start the ball?

COURT.—The Quarterly and Circuit Courts meet next Monday. Judge Hills of the former and Judge Bond of the latter presiding.

Remember that the Sheriff's sale of Grand Junction town lots will take place at the court house door next Monday.

Among the new materials for summer dresses are the piques, which are woven this season so as to look as though they were coarsely ribbed, and they are generally covered with a pattern.

The patterns imitate braided arabesque guipure; there are also flowers and hosiery, and several other designs, generally on white grounds. Percales are very popular for demi-toilette, and the newest patterns in this material are stripes of a dark color with large daisies or camels, or stars in the stripes; the ground of the dress is either white or maize color.

As a charge, there is a new material called the *Sultane*. It is made of very fine wool, with satin stripes, and is something like the woven Chambery gauze. It is very pretty in light color, such as the new blue, pink, mauve and sea-green. It is not expensive, and many pretty promenade toilets are made of it, trimmed with ribbon of the same color and with Thibet fringe.

It is not such a difficult matter to be well dressed in summer without spending a great deal of money, as most necessarily be the case in winter. Freshness is the great merit of a summer toilet.

ALWAYS A PLEASURE.—It is both a pleasure and a duty for a journalist to call attention to the claims of legitimate and enterprising merchants, especially of those who deal so liberally with every one who patronizes their efforts. Memphis has many large and influential houses in its limits, prominent among which is that of Orgill Bros. & Co., dealers in hardware, seeds, and farming implements of every kind. Nearly all of the old and responsible planters of this county remember the firm of Olyoke, Lowmes & Co., and the house in which they carried on their business. Their successors were Orgill, Lowmes & Co., and in turn this firm was succeeded by that of the Orgill Brothers. Now, the business is the same, only on a larger scale, and is managed by the Orgill Bros. & Co. Mr. Dennison, long known as the financial and business man of the establishment, has become a partner in the house, and is devoting his great experience and entire energy to meet every demand of the vast trade that is daily increasing and pouring into their establishment. We know of no similar business house in the south that can boast of a fairer reputation, and do but our duty when we call the attention of the public to the fact that Orgill Bros. & Co. offer inducements inferior to none.

CLOTHING.—Fleming, Ussery & Co. are closing out their stock of summer clothing at remarkably low prices.

TIME.—Those of our citizens who have time pieces that do not measure the fleeting moments as correctly as they should, can have them put in good order by calling on Mr. John R. Bynum, watchmaker, jeweler and engraver, at the store of Elson & Co., south side of the public square.

THE LATEST.—Harris, Moore & Co. are in receipt of a full line of straw goods, such as ladies' hats, hats and caps for gentlemen's wear, fans, etc. These goods were purchased for cash and will be sold low, as also will be any of their beautiful summer goods.

Hops.—Dra. Black & Moore have for sale a few packages of excellent hops. Call on them and get a paper, brew your own stout and make good and wholesome bread.

LADIES' SHOES.—Elson & Co. have just received a large assortment of beautiful shoes for ladies' wear. They are of the best material and finest manufacture. They also have some superb dress patterns suitable for summer wear. Call and examine the articles, as it is no trouble to show goods.

Persons in need of machinery of any kind should call on Lawless & Widrig, foot of Adams street, Memphis.

202.—Simpson, Hadden & Co. desire to extend their country trade, and are offering great inducements. They deal in groceries, wines, liquors and plantation supplies.—202 Front street, Memphis.

THE BELLE.—H. A. Wolf is the gentlemanly proprietor of the great Belle Memphis Saloon, 14 Adams street opposite the Warehouse House. His wines, liquors and cigars are inferior to none.

Go to Memphis when you may But always call on Professor Day. And have your picture taken in the finest style known to the photographic art. His rooms are at the corner of Main and Second streets, and his prices are very low and uniform.

304 Front street Memphis, is never forgotten by those who purchase their supplies there. Messrs. Taylor, Gay & Rutland are heavy dealers in all kinds of groceries, and sell at northern prices. They do a cotton and commission business.

DIXIE & McQUEE, at No. 414 Jefferson street, between Main and Second, have one of the finest saloons in the city of Memphis. Call on them and test their wines and liquors.

LIGHT.—Blood & Co., at 361 Main street, and 40 and 40 1/2 Monroe street, Memphis, have a large stock of oils, lamps, tin, tin-ware, lanterns, stoves, culinary vessels, and innumerable useful household articles for sale low.

232.—Choate & Co., at No. 232 Front at, deal in cooking and parlor stoves, tin, copper and ironware, sheet-iron, sheet-copper and sheet-iron; merchants, dealers and planters will lose nothing by calling on Choate & Co., when they are in Memphis. They are legitimate merchants, and drive a large trade.

CHILL KING.—Old people and young people, black people and white people, good people and bad people and all the balance of mankind, should always have a bottle of Chill King on hand. It is the greatest fever and ague medicine ever prepared. Send to Creighton & Co., 444 Main street, Memphis, and it will be forwarded to you immediately.

REMOVAL.—Dra. Mortimore & Payne have removed their office from the Commercial to the Warehouse House—room 23 (the same occupied by Dr. Mortimore the past four years), where all who desire to, can consult and procure treatment. Special attention given to all the various forms of chronic diseases, especially disease of the lungs and throat, disease of the heart, liver, spleen, kidneys and spine, dyspepsia, chronic diseases of the stomach and bowels, rheumatism, neuralgia, nervous affections, all the afflictive forms of female diseases, as also all diseases having origin in impurity of the blood and vital fluids. Office hours, from 8 o'clock a.m. until 6 o'clock p.m., daily.

The people of Marshall county, Alabama, are suffering for the commonest necessities of life. At a late meeting of the Memphis Chamber of Commerce committees were appointed for the purpose of calling on the public for such articles as would relieve the wants of the sufferers.

The latest "sensation" in England is the *Raphanus caudatus*, a gigantic radish, from Java, and which is found to grow well in the insular gardens. The seeds germinate easily, and the plants produce a profusion of blossoms in about eight weeks, often making a growth of five or six inches in 24 hours. The root is not eaten, only the pods, which often attain a length of three feet. The plants should be tied upright, as they produce from 15 to 20 pods each, growing in fantastic and irregular shapes. Eaten raw, the *raphanus* has much the flavor of the most delicate radish, and is a great addition to a salad. When boiled, it is served up on a toast like asparagus, which it resembles in flavor, but with a dash of the taste of early green peas added. The pods also make a good pickle. The seeds are sold at the rate of three for half-a-guinea, and seven for a guinea.

HORRIBLE.—We clip the following from the Commercial, a reliable paper printed at Knoxville, in this State:

"We have just been shown a private letter from Floyd county, Georgia, to one of our citizens, in which one of the most dastardly crimes is made known we ever chronicled. Three ladies were returning home from a visit to a neighbor, when a negro upon them in a secluded out-of-the-way place, and attempted to detain them all. Two of them succeeded in getting away from him, the other one he took into the woods and tied her and kept her there for two days without food. Her friends found her at the end of that time. The negro was caught, and she was asked what punishment she desired to have inflicted on this demon. She wanted his arms cut off and then wished him skinned alive. The sentence was executed. The negro lived about ten minutes after the operation.

The harvesting of our wheat crop has been going on throughout the county the past week. The results indicate a good half crop—on many farms nearly a full crop—and invariably a most superb grain.—*Gallatin Examiner*.

Mr. Mason is now in Montreal waiting for the President's pardon.

COMMERCIAL.

New York, June 23.—Gold 152 1/2; no cotton quotations given. Wheat choice spring, \$2.20.

New Orleans, June 23.—Gold opened at 52 1/2 and closed at 50 1/2. Cotton declined 2 cents; sales of 600 bales of low middling at 33 3/4.

Memphis, June 23.—Gold inactive at 50 with but few sales. Silver, dull at 25 3/4. Cotton, but little doing: middling 33 3/4, while low middling is hard to sell at 31 3/4. Lard in kegs, 25 25c. Corn, 85 93c. Sugar, N. O. fair at 17c. Butter, 23 30c according to quantity. Supply in excess of demand.

The closing exercises of the Bolivar Male Academy, which took place last Tuesday and Wednesday, passed off creditably to all concerned. On Thursday following, the young folks enjoyed themselves at a grand picnic at Dunlap Springs.

RELIGIOUS.—Rev. E. H. Osborn delivered an eloquent and instructive sermon in the M. E. Church last Monday evening.

COLD WEATHER.—We have experienced, for the past few days, most remarkably cold weather for this latitude. Such cold winds as are now prevailing are very injurious to the cotton plants.

WHEAT.—Nearly all the wheat grown in this county the past season has been harvested. Not more than half a crop has been made, yet it is of good quality.

The Prussian troops entered Holstein on the 7th.

The census of Huntsville, Ala., completed on Saturday, shows a population of 2373 whites and 2248 blacks.

A grand tournament takes place at Holly Springs on the 15th and 19th of July.

Geo. W. Summers is a conservative candidate for Governor of the "forty-eight" counties designated as Western Virginia.

Prof. R. L. Dabney's Life of Stonewall Jackson, revised in manuscript by Gen. Lee, is being republished in London.

To Wash Calico Without Fading.—Infuse three gills of salt in four quarts of water; put the calico in while hot, and leave it till cold, and in this way the colors are rendered permanent, and will not fade by subsequent washing. So says a lady, who has frequently made the experiment.

Throckmorton, the conservative candidate for Governor of Texas, has been elected by an overwhelming majority.

The President is endeavoring to secure the release of all the American citizens now held as prisoners in Canada. It is believed the intervention will meet a favorable response from the British government.

It is thought the house will adhere to the tax of five per cent on cotton which will cause a conference committee. The action of that committee will probably be a compromise on the senate's amendment, and the rate be fixed at two and a half cents.

The President has approved the bill for the disposal of the public lands for homesteads for actual settlers, in the States of Alabama, Louisiana, Mississippi, Arkansas and Florida.

The Daily News correspondent at Florence, says the first hostile movement of Italy will be to throw 80,000 men in one body across the Po, and following this by pouncing 300,000 down on Venice.

The Vienna correspondent of the Times describes the position of the Austrian army of the north as follows: The center is between Almutz and Prague; the left wing extends from Prague by way of the north-western frontier to Bohemia, and the right wing from Almutz to Crakow, where there is a strongly entrenched camp.

A young man by the name of Hood was killed by lightning near Nashville on the 22d.

Printers' Mistakes.—During the Mexican war one of the English newspapers hurriedly announced an important item of news from Mexico, that General Pillow and thirty-seven of his men had been lost in a battle. Some other paper informed the public, not long ago, that a man in a brown suit was yesterday brought before the court on a charge of stealing a small box from a lady's work bag. The stolen property was in his waistcoat pocket. A rat [raft], says another paper, descending the river, came in contact with a steamboat, and so serious was the injury to the boat, that great exertions were necessary to save it. An English paper once stated that the Russian General Backoffsky was found dead with a long word [sword] in his mouth. It was, perhaps, the same paper that, in giving a description of a battle between the Poles and the Russians, said that the conflict was dreadful, and that the enemy were repulsed with great laughter [laughter]. Again, a gentleman was recently brought up to answer the charge of having eaten [beaten] a stage driver for demanding more than his fare.

NIPPED IN THE DUD.—We understand that a couple of our young gallants came very near having a duel yesterday; the challenge had passed and an acceptance returned, when one of our keen-scented officers got wind of the affair and put a stop to further proceedings by having the parties bound over to keep the peace. "Requiescant in Pace."
